

CASE STUDY

Supporting the Community Through Partnership with Compton Care

At Wedge Group Galvanizing, community care and social responsibility are embedded in our company values. Our longstanding partnership with Compton Care exemplifies our commitment to giving back and supporting essential services that make a difference to people's lives.

About Compton Care

Compton Care has been a cornerstone of compassionate care in the community for over 40 years, providing specialist palliative and end-of-life care for individuals living with life-limiting conditions. Their expert team delivers tailored support, either at their state-of-the-art facilities or directly in patients' homes, ensuring that patients and their families feel safe, cared for, and empowered.

Our Commitment to Compton Care

As a business with local roots in Willenhall, Wedge Group Galvanizing prioritises supporting initiatives that benefit our community. We first partnered with Compton Care as a Corporate Sponsor several years ago, recognising the vital role they play in delivering high-quality care and comfort to patients and their families during some of life's most challenging moments.

Chloe Sharman, Marketing Executive at Wedge Group Galvanizing, explained:

"Our local roots and community values are at the heart of everything we do. We are incredibly proud to support the vital work of the Compton Care team and their dedicated volunteers, who make such a profound impact by delivering exceptional care to individuals facing life-limiting conditions."

Celebrating a Milestone

In 2024, our continued partnership with Compton Care was formally recognised with the presentation of a bronze plaque. The recognition ceremony was held at Compton Hall, where members of our team had the honour of placing the plaque on Compton Care's new Recognition Wall. This wall, located in the tranquil Compton Hall Garden, serves as a public celebration of the supporters who make Compton's work possible.

Kate Kelly, Relationship Manager at Compton Care, shared: *"We are extremely grateful for the continued support of Wedge Group Galvanizing and are delighted that they were able to join us to hang their recognition plaque on the wall themselves. As an organisation, we rely heavily on voluntary donations to ensure that we are able to support patients and families when they need us most."*

Looking Ahead

We remain committed to supporting Compton Care as they expand their services and reach even more people in need.

We're proud to stand alongside Compton Care as they deliver exceptional care to individuals and families during life's most challenging times. Together, we're building a legacy of compassion, resilience, and hope.
