

# Premium Service

Need your work back urgently? Why don't you try our premium service to have your work back in just 24 hours?!

## How it all works:

All work must be on our premises before 2:30pm on any given working weekday- it will be ready for collection at 12 noon the following day.

Should work arrive on a Friday, it will be ready for collection on the following Monday at 12 noon.

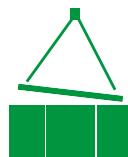

It must be clearly stated on your advice note that you require the premium service and agreed with production.

Each job should be no more than 150 pieces.

This works on an ex works bases only.

All work needs to be suitably vented and free from paint to avoid any delays. Prior permission to drill if required will be needed at time of placing the order.
